PROFESSIONAL SUMMARY

AI Product Engineer and founder with hands-on experience building and operating production LLM-powered products using AI-assisted, Cursor-centric development workflows. Specialized in applied LLM systems, AI agents, and rapid AI-first product execution.

Primary strength is human-AI collaborative coding: using AI tools (Cursor, Claude, GPT, Groq) to design, generate, and iterate production code under clear human intent, constraints, and validation. Former Deputy CEO and Chief Legal Officer in e-government, with 7+ years of executive leadership experience, bringing strong product judgment, execution discipline, legal due diligence, and business context to engineering work.

Seeking roles in AI-focused companies as an AI Product Engineer, Applied LLM Engineer, AI Engineer, or Founding Engineer.

CORE SKILLS

AI and LLMs

Claude (Opus, Sonnet, Haiku), OpenAI GPT-4, Groq (Llama 3.3 70B, Whisper), Model Context Protocol (MCP), Prompt Engineering, Multi-turn Context Design, Tool/Function Calling

AI-Assisted Development

Cursor IDE (primary development environment), AI-assisted Code Generation and Refactoring, Human-in-the-loop Validation Workflows, Rapid Prototyping to Production Iteration

Programming

Python, TypeScript, JavaScript, SQL

Backend and APIs

FastAPI, Flask, Node.js, Express, REST APIs, Async Workflows

Frontend

React, Vite, Tailwind CSS, Framer Motion

Databases and Infrastructure

PostgreSQL, Oracle Autonomous Database (mTLS), Oracle Cloud Infrastructure (OCI), Railway, Supabase, Docker, PM2, Ubuntu

Integrations

GitHub API (Octokit), Telegram Bot API, WhatsApp Business API, PayPal Subscriptions, Twitter/X API, Make.com, Buffer

Web3

Polygon, Thirdweb, IPFS, NFT Platforms, Smart Contract Interaction

PROFESSIONAL EXPERIENCE

Founder and AI Product Engineer

Aldeazz.xyz | Panama/Remote | 2025 – Present

Founder and lead builder of an AI-first ecosystem of applied LLM products and autonomous AI agents, developed using AI-assisted (Cursor-centric) workflows.

Responsibilities:

- Designed system architecture and product logic
- Used AI tools (Cursor, Claude, GPT, Groq) to generate, refactor, and evolve production code
- Integrated APIs, databases, bots, and payment systems
- Deployed, monitored, and operated production services independently

Key Outcomes:

- 8+ live AI products deployed in under 10 months
- 11 active GitHub repositories
- Users across 19 countries
- Live subscription monetization via PayPal
- Approximately 99% cost reduction compared to traditional multi-role development teams

CTO AIPA - AI Technical Assistant (Production System)

- Autonomous AI system supporting technical decision-making and code review across multiple repositories
- Automated repository analysis and PR review via GitHub API
- Model routing between Claude (deep analysis) and Groq (low-latency inference)
- Human-approved AI code generation and PR workflows
- Persistent system memory using Oracle Autonomous Database with mTLS
- Technologies: TypeScript, Node.js, Express, Claude, Groq, Oracle Cloud, GitHub API, PM2

CMO AIPA - AI Marketing Agent (Production System)

- Autonomous AI agent for marketing strategy and content execution
- Daily AI-generated bilingual (EN/ES) content
- Strategic reasoning for messaging and timing
- Integrated with technical system for automated release announcements
- Technologies: Python, FastAPI, Claude, Make.com, Buffer, Railway

EspaLuz - AI Spanish/English Tutor (Production System)

- Built bilingual EN/ES AI tutor with persistent emotional memory, OCR, TTS, and multimodal learning
- Deployed on WhatsApp Business API and Telegram
- Early traction across 19 Spanish-speaking countries; PayPal subscriptions live
- Technologies: Python, GPT-4, LangChain, Whisper, PostgreSQL, Railway

Additional Deployed Products

Atuona Creative AI (Atuona.xyz) — Multimodal AI creative co-founder for writing, visual storytelling, and AI film

- LLM → image → video pipeline with persistent context, automated social formatting, and blockchain publishing
- **Tech:** TypeScript, Node.js, Claude Opus, Replicate, Luma Labs API, Telegram Bot API, Thirdweb, Polygon

Aldeazz.xyz — Bilingual AI ecosystem platform for emotionally intelligent agents

- **Tech:** React, TypeScript

ALGOM Alpha — AI crypto education bot on X (@reviceva)

- **Tech:** Node.js, ElizaOS

Operational Co-Founder

OmniBazaar (Decentralized Marketplace Start up) | Remote | 2024 – 2025

- Structured DAO LLC (Marshall Islands)
- Designed governance, tokenomics, and operational workflows
- Drafted DAO operating agreements aligned with smart contracts

Deputy CEO and Chief Legal Officer

JSC "E-GOV OPERATOR" | Russia | 2011 – 2018

- Led large-scale public-sector digital transformation initiatives
- Managed cross-functional teams (IT, legal, compliance)
- Oversaw enterprise technology programs and corporate board operations

Deputy CEO (Business Development)

Fundery LLC (Fintech/Blockchain) | Russia | 2017 – 2018

- Managed ICO compliance, investor relations, and regulatory documentation
- Led contract negotiations and blockchain launch strategy

EDUCATION AND CERTIFICATIONS

Polkadot Blockchain Academy (PBA-X Wave #3) | 2025 | Online

How-To-DAO Cohort Graduate | 2025 | Online

Master of Arts in Social Psychology | Penza State University | 2018 | Russia

Blockchain Regulation | MGIMO | 2017 | Moscow

Presidential Program for Executive Management | RANEPA | 2015

Internship | Norway, Bergen

LANGUAGES

Russian (Native), English (Fluent), Spanish (Intermediate), French (Elementary)

TARGET ROLES

AI Product Engineer, Applied LLM Engineer, AI Engineer, Founding Engineer, AI Solutions Architect

AVAILABILITY

Open to Full-time, Part-time, Contract, Remote
